

210 x 62,5 mm

The diagram shows a roof structure with a central ridge. The roof is divided into four quadrants by a horizontal dashed line and a vertical dashed line. The left and right quadrants are triangles, while the top and bottom quadrants are trapezoids. The top-left trapezoid contains two rectangular components. The top-right trapezoid contains one larger rectangular component. The bottom-left and bottom-right trapezoids are empty. The dimensions of the components are: 210 x 62,5 mm (top-left), 210 x 67,5 mm (bottom-left), and 210 x 150 mm (top-right).
